

Personal Development

Children are aware that environmental impact is considered in industry
 Children appreciate that architecture can evoke emotions including awe and wonder
 Real life jobs it links to – architect, graphic designer

Forever facts

Architecture can be inspirational whilst both large and small

The Tiny House movement promotes the reduction and simplification of living spaces to be eco-friendly

We can use form, structure, materials and scale to design innovative buildings

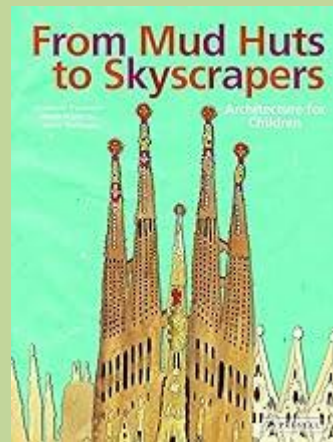

Skills

I can explore how line, form, structure, material, and scale are all used to make architecture interesting

I can use a sketchbook to collect, record and reflect my ideas

I can use a 'design through making' technique

Exciting Books

Our Endpoint

I can build an architectural model to share my vision

Subject Specific Vocabulary

architecture	the art of designing and constructing buildings
'design through making'	to build models to test out our ideas
form	the shape of something
structure	a building constructed from different parts
scale	a ratio of size in a map, model, drawing or plan
interior	inside
exterior	outside

What I have learnt before:

Children have been introduced to the discipline of architecture

Children have explored design through making
