

# Art

How can I use  
inventiveness to create  
sculpture?

---

Tamar Summer 2023

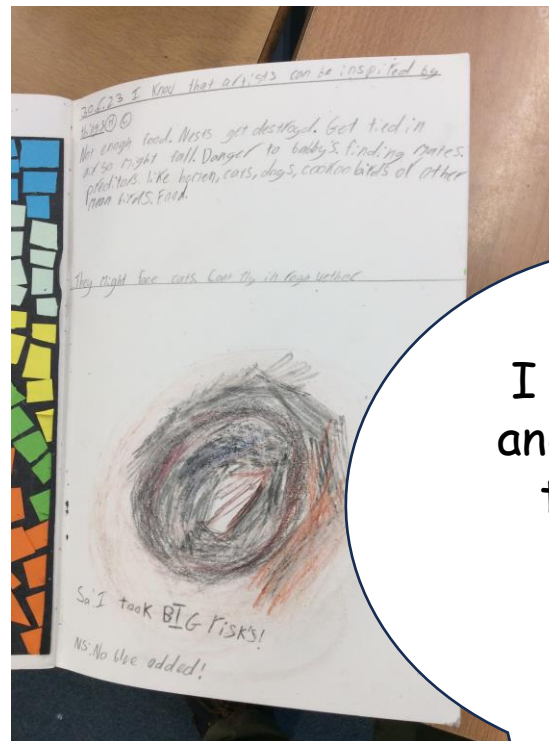

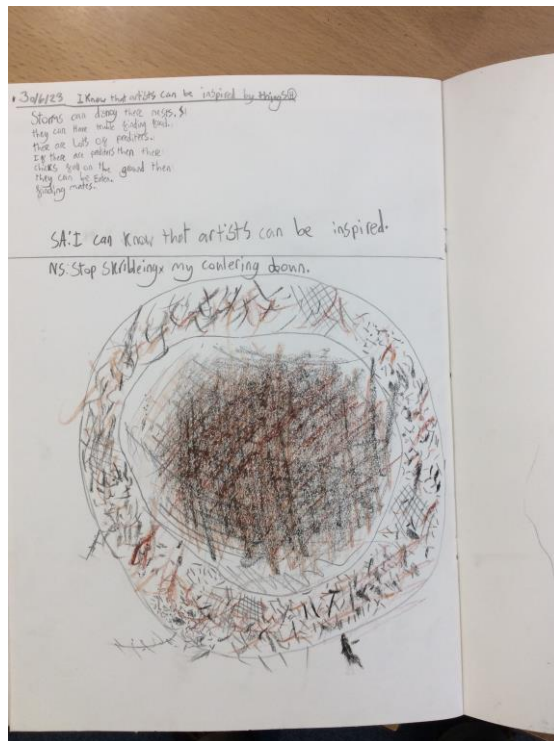

We watched  
Marcus Coates and  
his thoughts about  
birds.

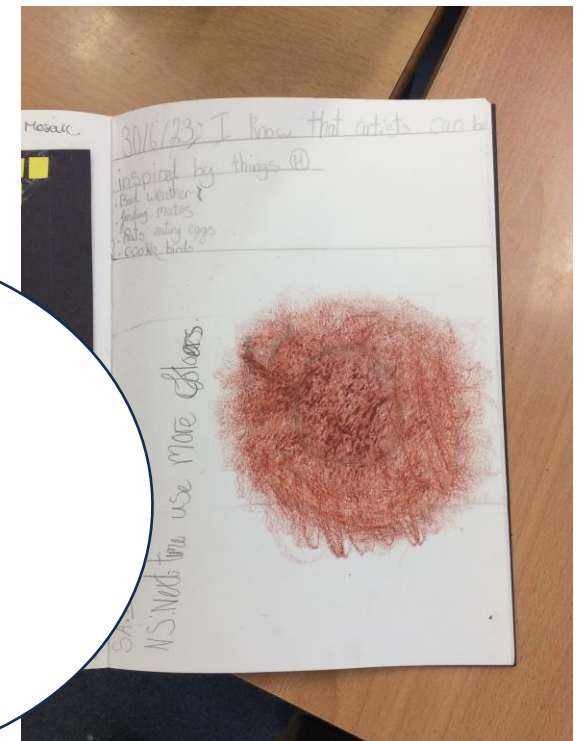

# We thought about what problems birds might have.

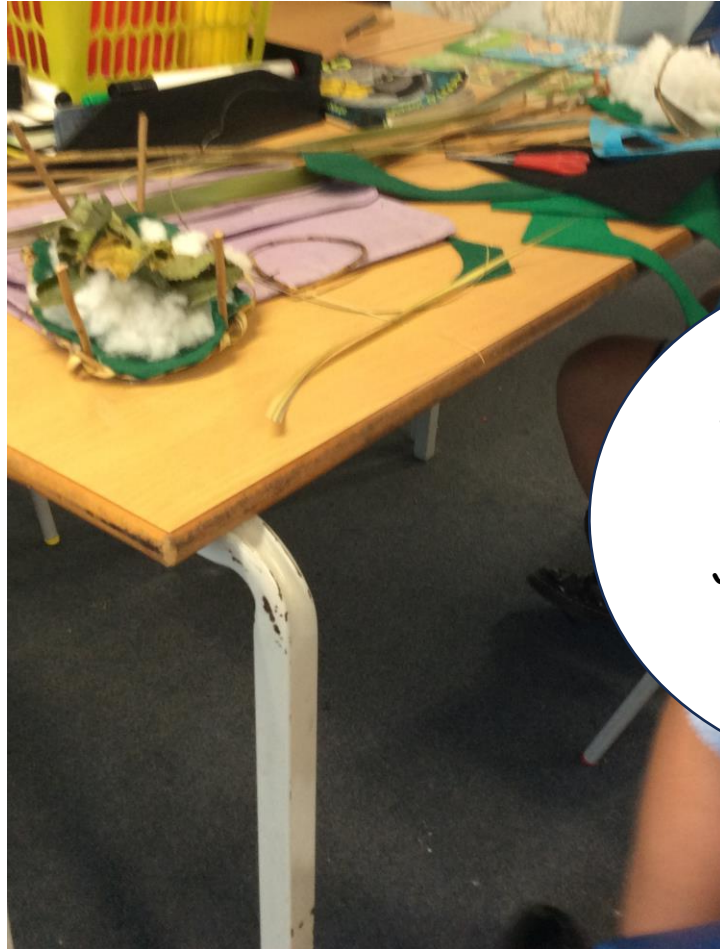

# We drew nests using a variety of mediums.

I used crayon and a 4B pencil to draw my nest.

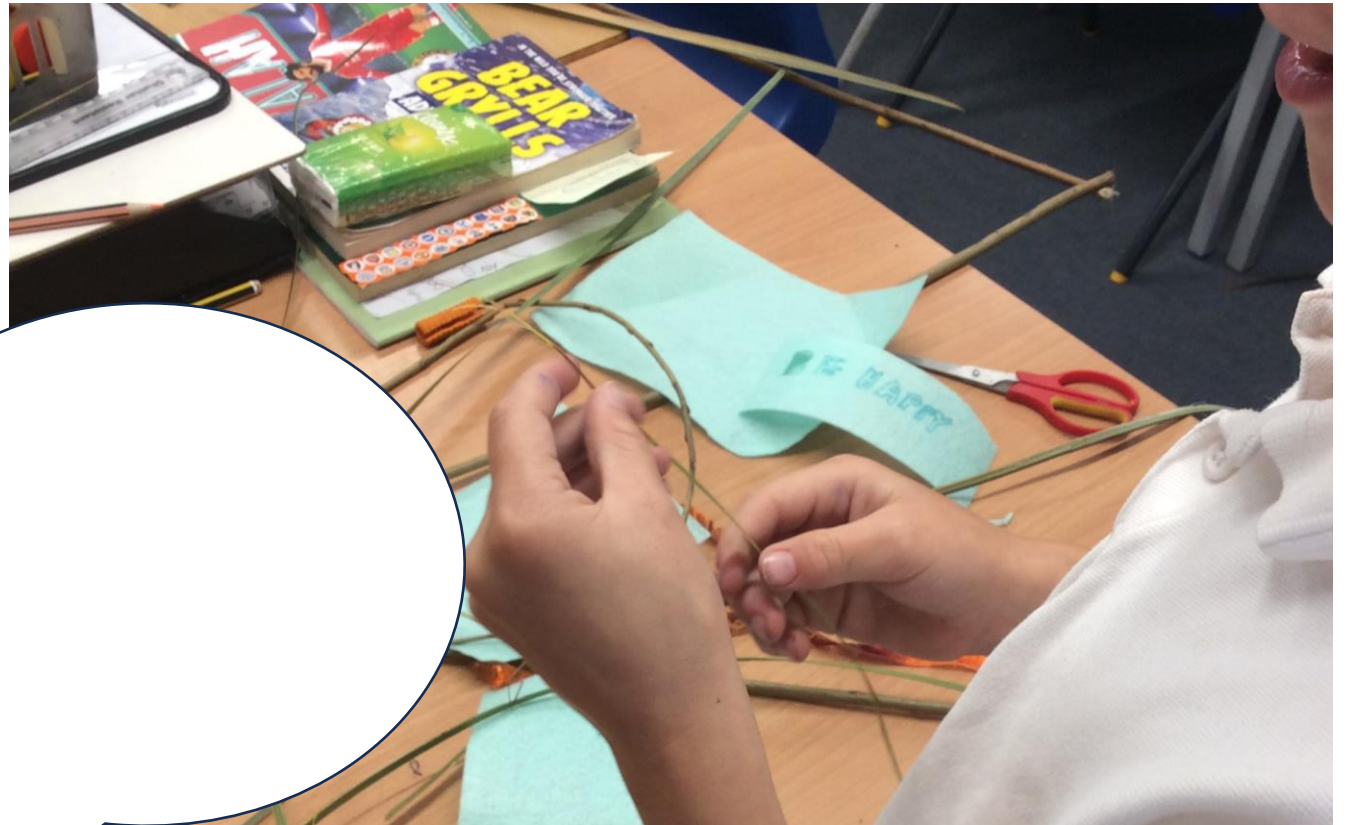

Finally, we made sculptures of birds nests. We used collected materials, willow, flax and art resources.

I used no glue to make my nest, just flax to tie it together.

We bent the willow.

# We were pleased with our finished sculptures.

I was proud of what I had made, you could even hang it up.

I had to change mine as it was not strong enough.

## Art and design FLE 3/4 How can I use inventiveness to create sculpture?

### Personal development

Appreciate art and sculpture and that opinions and view points may vary.  
Possible job opportunities in design, art and creative industries.

### Skills

Use materials to make a sculpture.  
I can use a sketch book to record ideas.  
I can talk about what I have made with my peers.

### Forever Facts

That sketch books can be used to record and develop ideas.

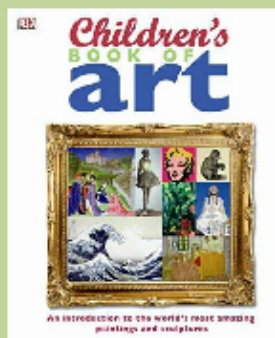

Sculpture can be used to represent ideas in 3D.

Response to sculpture can be personal and people will express different ideas.

### What I have learnt before:

Joan Miro Spanish sculptures.

### Exciting Books

### Our Endpoint

I can create a personal sculpture based on my feelings.

### Subject Specific Vocabulary

#### Sculpture

An artistic form where materials are worked into 3D art objects.

#### Mark making

Describes lines, dots, marks, patterns and textures in art.

#### Soft B pencil

A pencil that has softer graphite which can produce darker black lines.

#### Hard pencil

A pencil that has harder graphite which produces less black lines.

#### Critique

To look at something critically, drawing positive and areas for development.

#### Marcus Coates

A modern artist from London who likes birds. His art includes sculpture and video.
