**What I have learnt before:**

- We have learnt about digital writing and digital painting.

*Personal development*:
Computing allows children to recognise the use of technology in the world around them. Jobs it can be used in: education, media, advertisement.
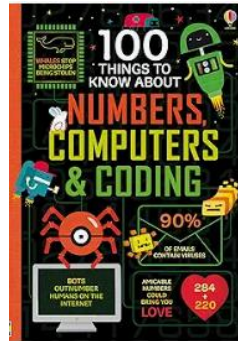

## Forever Facts

Text and images can be used together to convey information.

Portrait is when the page is higher than wider and landscape is where a page is wider than higher.

Different layouts can suit different purposes.

You can change font styles and effects for different purposes.

## Exciting Books

100 THINGS TO KNOW ABOUT NUMBERS, COMPUTERS & CODING

## Subject Specific Vocabulary

| landscape | Where a page is wider than it is high. |
|---|---|
| portrait | Where a page is higher than it is wide. |
| orientation | The position or direction of something. |
| placeholders | A set section of a page that holds a place ready for the final piece of text or images. |
| text | A collection of words or letters that are understandable by the reader |
| font | Graphical representation of text that can include different style, size, weight or colour. |
| images | A picture in digital form such as drawings, pictures, graphs, logos, or individual video frames. |

## Skills

I can change page orientation.

I can organise text and image on a page layout.

I can add and edit text and images.

I can choose fonts and apply effects to text.

I can reflect on the benefits of using desktop publishing for communication.

## Our Endpoint

I can use desktop publishing to communicate.
